

## Initial Project Planning Template

|               |                                                     |
|---------------|-----------------------------------------------------|
| Date          | 18 September 2026                                   |
| Team ID       | MCA                                                 |
| Project Name  | Strategic Employee Attrition Intelligence Dashboard |
| Maximum Marks | 4 Marks                                             |

### Product Backlog, Sprint Schedule, and Estimation

Use the below template to create a product backlog and sprint schedule

| Sprint   | Functional Requirement (Epic)    | User Story Number | User Story / Task                                                                                                                                                                                          | Story Points | Priority | Sprint Start Date | Sprint End Date (Planned) |
|----------|----------------------------------|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|----------|-------------------|---------------------------|
| Sprint-1 | Data Understanding & Preparation | USN-1             | As an HR analyst, I want to understand the employee dataset and identify important attributes such as department, job role, age, income, and years at company so that I can prepare the data for analysis. | 3            | High     | 18-09-2026        | 25-09-2026                |
| Sprint-1 | Data Cleaning & Transformation   | USN-2             | As a data analyst, I want to clean and transform employee records by handling missing values, checking duplicate records, and preparing                                                                    | 4            | High     | 26-09-2026        | 02-10-2026                |

| Sprint   | Functional Requirement (Epic)        | User Story Number | User Story / Task                                                                                                                                                                                 | Story Points | Priority | Sprint Start Date | Sprint End Date (Planned) |
|----------|--------------------------------------|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|----------|-------------------|---------------------------|
|          |                                      |                   | suitable fields so that the dataset can be used reliably in Power BI.                                                                                                                             |              |          |                   |                           |
| Sprint-2 | Employee Attrition Analysis          | USN-3             | As an HR manager, I want to analyze employee attrition based on department, job role, gender, and marital status so that I can identify employee groups with different attrition patterns.        | 3            | Medium   | 03-10-2026        | 10-10-2026                |
| Sprint-1 | Performance & Career Growth Analysis | USN-4             | As an HR manager, I want to analyze employee performance, job involvement, years at company, and career-related factors so that I can understand employee development and retention patterns.     | 5            | High     | 11-10-2026        | 20-10-2026                |
| Sprint-1 | Dashboard Development & Testing      | USN-5             | As an HR decision-maker, I want an interactive Power BI dashboard with KPIs, charts, filters, and employee insights so that I can easily monitor workforce trends and support HR decision-making. | 5            | Medium   | 20-10-2026        | 31-10-2026                |
